

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headache and fevers, gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the company printed on the front of every package.

CHORUS OF HOCHS

Greeted the Toast "The

United States" Drunk Be-

fore Henry's Departure.

PRINCE IN FINE SPIRIT

The Day Preceding His Long An-

ticipated Journey Given Up to

Romps With Children.

At His Farewell Banquet Prince

Henry Proposed a Complimen-

tary Toast.

Kiel, Prussia, Feb. 15.—Prince Henry
of Prussia, closing his books on
America, romped with his children
most of the day preceding his de-
parture for the United States. He and
the princess and their children went
out coasting again. Prince Henry
went down hill on his stomach, back-
wards and standing up. Once while
darting down the hill standing, the
sledder struck a hillock, wildly gyrated,
and the prince pitched into the snow,
which caused his boys to scream with
delight. The princess also made a
descent standing. She looked quite
graceful as she balanced gracefully on
the swiftly moving sled.

Prince Henry went to the yacht club
the evening before. It is a regular
thing for him to spend Thursday even-
ings there. It is understood that the
young fellows stay away from the
club that evening. About 20 of the
elder members were present, mostly
naval officers. Three bowls of punch
were mixed and the party drank a
pleasant journey to Prince Henry.
The prince proposed "The United
States" and the toast was drunk to a
chorus of "hochs."

In a bunch of newspaper clippings
that came to the prince yesterday
from Berlin was one which described
the "Hohenzollern punch," invented
by a Broadway bartender. On the
margin of the clipping the emperor,
in his own handwriting, had written:
"Schrecklicher Katzenjammer am Mor-
gen" ("What a headache in the morn-
ing").

Prince and Princess Henry of Prussia
have seen many curious things in
the American papers, of which num-
bers were received during the last
fortnight, and they have had a lot
of fun over them. "But they have not
seen a line," said a member of the
household, "that they knew was not
kindly meant."

Every preparation for the voyage to
the United States is completed. Carts
last evening took away the last pile
of baggage from the castle yard, and
the prince's special train left here at
8 o'clock this morning. The princess
did not go to Bremerhaven to bid the
prince farewell.

NO POLITICS IN IT

Prince Henry Departs Today Simply

On a Friendly Visit.

Berlin, Feb. 15.—The Berliner Neu-
este Nachrichten devotes a leader to
the departure today of Prince Henry
and wishes that his enjoyment of
American hospitality be not interfered
with. "The mission upon which the
prince goes as the representative of
Emperor William," says the paper,
"is in no sense political, in spite of
the political character imputed to it
in unfriendly quarters, in order to
create divisions among the American
people and spoil the visit. The visit
of Prince Henry is intended for the
whole American people, and not merely
for the German element in the
United States. No sensible German
statesman wishes to see German
Americans other than good American
citizens. The practical sense of the
Americans has frustrated all attempts
through political maneuvers to de-
stroy the harmony of the prince's
trip."

A DREAD RUMOR

It Is Reported That An Asiatic City

Was Swallowed By Earthquake

St. Petersburg, Feb. 15.—A report
has just reached this city that the
city of Schemakha in Trans-Caucasia
has been totally destroyed by a ter-
rific earthquake.

The town had 22,000 inhabitants
and the report says that thousands of
lives have been lost. In fact the re-
port says but few persons survive.
Full details have not yet been re-
ceived.

Didn't Forget Her Old Home.

New York, Feb. 15.—By the terms

of the will of Carolus S. Rathbone of

this city, filed for probate in the sur-

rogates' office yesterday, property and

money to the extent of \$70,000 is be-

queathed for the purpose of founding

and maintaining an institution to be

known as the Rathbone Memorial

Home for Aged and Infirm Persons, at

Evansville, Ind., where the testatrix

owned considerable property.

Caught at the Crossing.

Owensboro, Ky., Feb. 15.—A pas-

senger train on the Louisville, Hen-

derson and St. Louis railroad yester-

day afternoon collided with a wagon

containing James Warren, a farmer,

and his son at the Henderson road

crossing west of the city. The young

man was injured so that he died in a

few minutes, and the father cannot

recover. Both of the horses were

killed.

CALLED HIM DOWN

Gen. Grosvenor Took Mr.

Wheeler to Task For His

"Inopportune Protest."

MONOTONY ENLIVENED

Representative Wheeler of Kentucky

Makes a Wild Onslaught On

Things In General.

Bases His Talk On Recent Diplo-
matic Events and Prince Henry's
Trip.

Washington, Feb. 15.—The monoton-
y of a private pension day of the
house was enlivened yesterday by a
sensational speech from Mr. Wheeler
(Ky.) in denunciation of what he de-
nominated "funkeyism" to foreign
countries. He took the recent state-
ments emanating from continental
cabinets regarding the attitude of
Great Britain during the Spanish war
as a text for a wholesale attack upon
the trend of our recent diplomacy.
He severely scored Secretary Hay and
declared that if Lord Pauncefote had
sought, as was alleged, to circumvent
us during the war of 1898 the sooner
he was shipped across the seas the
better. He also criticized the presi-
dent for his reported intention to send
his daughter to the coronation of King
Edward and protested against the of-
ficial reception of Prince Henry. His
speech aroused the house to a high
pitch of excitement and elicited from
Mr. Boutelle (Ill.) a spirited defense
of Secretary Hay, whom he eulogized
in high terms. Several other mem-
bers on the Republican side took a
hand and later in the afternoon Mr.
Grosvenor (Ohio) took Mr. Wheeler
to task for his "inopportune protest" and
rehearsed the history of the visit
of the Prince of Wales to this country
in 1860 and his reception by President
Buchanan. During the day 125 private
pension bills were passed in 37 min-
utes.

A little flurry was created in the
senate over the employment since the
beginning of the session of a score
or more of extra clerks and messen-
gers to committees. The charge of
extravagance made induced the refer-
ence of the whole subject of clerical
employment to a committee for in-
vestigation and report.

The bill creating a permanent cen-
sus office was under consideration for
a time, but was not disposed of finally.
After the passage of a large number
of private pension bills the senate
eulogized the life and character of the
late Representative Brosius of Penn-
sylvania.

HENS AND COWS

These Domestic Friends Score a

Triumph These Zero Days.

New York, Feb. 15.—Bradstreet's
weekly review of trade today says:
Sales for spring account, demand for
manufactures and industrial opera-
tions generally are expanding, while
prices are hardening. Specially good
reports come from the West and
Northwest, and the leading Eastern
markets also note the growth of sales
for spring. Least favorable advices
come from the South and Southwest,
though Chicago notes exceptionally
large buying by wholesalers from
those sections. Water is reported
scarce and railroads are reported haul-
ing 100 miles. Kansas City and St.
Louis therefore report relatively the
least favorable reports for a long time
past.

Strength is to be noted in all the
cereals and flour, fractional advices
being shown during the week, while
hog products, country produce gener-
ally, iron and steel and other metals
are also quoted higher. The highest
prices in years have been reached by
butter and eggs as a result of the
cold weather, which in the northern
part of the country, particularly in
the East, has checked shipments and
impeded collections.

THE RANSOM PAID

Such Is the Latest Report Regarding

Miss Stone's Case.

Constantinople, Feb. 15.—The ransom
for Miss Ellen M. Stone and her
companion, Mme. Tsilka, has been
paid. The limit of time for the release
of the captives has not yet expired,
but their delivery to the American
agents is expected hourly. An official
newspaper declares that as the
result of an energetic note from the
United States government Turkey has
permitted the opening of negotiations
direct with the brigands for the lib-
eration of Miss Stone on Turkish ter-
ritory.

An Important Combination.

Boston, Feb. 15.—Announcement

has been made here that a combina-

tion of trans-Atlantic steamship com-

panies, embracing the Dominion and

Leyland lines of Boston and the White

Star, the American and the Atlantic

Transport lines of New York, has been

effected. The combination controls

120 steamers of all sizes, and it is

said has behind it a large capital.

A French Estimate.

Paris, Feb. 15.—The Anglo-Japanese

alliance continues to be the topic for

considerable discussion in the French

press. The consensus of opinion is

that it is directed against Russia and

that therefore it may lead to tension

in the far East.

STATE HEALTH STATISTICS

Increase of Pulmonary Affections the

Chief Feature.

Indianapolis, Feb. 15.—A synopsis
of the report of the state board of
health for the month of January, is-
sued today by Secretary Hurty, shows
there was a decided improvement in
the health of the state as compared
with the month of January, 1901. The
number of deaths in January, 1902,
was 2,829; in January, 1901, the deaths
numbered 3,460. The report shows
the greatest mortality was among the
old people who have been unable to
withstand the severe January weath-
er. Death claimed nearly 1,000 peo-
ple over 60 years of age in January.
The month has been severe with those
afflicted with pulmonary troubles, as
the number of deaths compared with
January last year from consumption
show an increase. There has, how-
ever, been less diphtheria and influ-
enza. There have been 427 deaths
from pneumonia during the month,
which exceeds the number from this
disease during January, 1901. It is
considered surprising that there was
also an increase in typhoid fever.
The southern part of the state shows
a higher death rate than either the
central or northern part of the state.
According to Dr. Hurty's figures the
death rate in the southern part of the
state, known in the monthly health
bulletins as the southern sanitary sec-
tion, is .8 per cent higher than the
annual death rate of the entire state.
In all sections, however, the rate is
considerably less than it was during a
corresponding period last year. There
are only seven counties in which there
were no deaths from consumption.
The death rate in the country over
the death rate of the cities was 3.3
for the entire month. The mortality
in the cities from consumption is as
usual higher than in the country,
which in a way bears out the theory
of the physicians who expatiate much
on the benefits of fresh air. The state
board has adopted a policy of sending
a circular to every home in which
there has been a death from consump-
tion, typhoid fever, diphtheria or scar-
let fever. The circulars treat of meth-
ods for prevention of these diseases,
and it is thought they are accomplish-
ing much in the way of educating peo-
ple as to preventative measures.

State Geologist Blatchley said today
that Indiana will surely be invaded
this year by 17-year locusts. This is
disputed by some men who claim the
locusts of the 17-year variety are not
coming until next summer, but Blatch-
ley says they're due this year, as they
were here in 1885. He has made an
exhaustive study of insects—the locusts
in particular—and he predicts they
will not be so numerous as they
were their last visit. They will be
so thick, however, that much damage
will be done to young fruit orchards.
He figures that the English sparrow
is helping exterminate the locusts
gradually by eating the eggs and the
pupae, which is the scientific term for
the form the insect passes through
before it is able to fly. As evidence
that the locusts are coming this sum-
mer, Blatchley says he was informed
by a friend a few days ago that he
had discovered well developed pupae.

Edwin W. Clark, secretary of the
Prohibition state committee, announced
today that the headquarters of the
organization will be moved from Muncie
to Indianapolis March 1. Head-
quarters will be established in the
Union block here and will be in charge
of L. C. Masters of Muncie, chairman,
and Secretary Clark. The Prohibi-
tion is carrying on a sturdy literary cam-
paign and are confident of getting a
larger vote than ever this year. Their
leaders have decided to nominate as
many straight Prohibition city tickets
as possible. It is probable every city
of over 10,000 population will have a
Prohibition ticket this year. Their
state convention will be held here
April 15 and 16.

Attorney General Taylor, Auditor
Hart, Secretary of State Hunt, Super-
intendent of Public Instruction Jones
and other state officials went to Leb-
anon last night to attend the annual
love-feast of the Republicans of Boone
county and to boom Frank Martin for
the nomination for auditor. Martin
resides in Boone county and no other
candidate has more enthusiastic back-
ing at home. Some of the state offi-
cials are making no secret of their
desire to have Martin nominated,
which is helping him in certain lo-
calities and hurting him in others, as
there are many who think the present
officials have had enough at the hands
of the state.

Old Wife Are Gone.Warsaw, Ind., Feb. 15.—Mrs. Jessie
Yount, the 24-year-old wife of John
Yount, aged 70 years, and a well-
known farmer, residing about six
miles southeast of this city, has eloped
with the 18-year-old son of her hus-
band. This astonishing fact came to
light yesterday when the aged hus-
band reported the disappearance of
both his wife and son. The old man
at first refused to believe that his wife
had been stolen from him by his own
son, but was at last convinced that
such was the case. Not a trace of
their movements has been discovered.
With the missing pair has gone \$450
belonging to the aged husband, but
which was deposited in his wife's
name at a bank in this city.Drawing the money from the bank
the pair drove west from here, and
since they were last seen, near the
city limits, nothing has been heard of
them. Warrants have been issued
for both of the elopers, charging them
with stealing the harness which was
on the horse with which they made
their escape. The horse and buggy
belonged to the deserted husband and
father, but the harness was the prop-
erty of a neighbor.

NEIGHBORS ARE SUSPICIOUS

They Say That Pete Hostettler Is
Feigning Insanity for Cause.Versailles, Ind., Feb. 15.—Peter Hos-
tettler, who had a prominent part in
causing the arrest of the five men who
were lynched here some time ago, is
now in jail at Vevay. Sheriff Voss of
this place, has been to Vevay to see
the prisoner. A few days ago Hostet-
tler was having breakfast with some
relatives half a mile from Vevay, when
he jumped from the table and started
on a run for town. He was barehead-
ed, in his shirt-sleeves and had no
shoes. The report started at Vevay
that there was a wild man at large
and the authorities arrested him. The
sheriff says Hostettler acts like an
insane man. The Vevay officers have
a telegram from Chicago stating that
he is wanted there for some crime.
There is an impression that Hostet-
tler is feigning insanity to avoid be-
ing taken to Chicago.

Beauty is Health.

Walnut Lake, Ark., June 8, 1900.
I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I improved. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.
Mrs. LIZZIE MANNELL

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui makes Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

LET us again hope that Miss Stone

Miss Stone doubtless needs a rest and
we know the reporters over there

THE fact that many of the democ-
ratic papers of the state are publishing
J. B. Stoll's reconstruction address,
delivered at the democratic editorial
association, and ignoring Editor

POLITICAL GOSSIP.

L. E. Slack, of Franklin, who was
in Seymour yesterday, is at Brown-
town today, seeing prominent democ-

Death in Various Forms.

A crank came running into the office
and said that a man swallowed a two-
foot rule and died by inches. The edi-
tor started out at once to learn further
particulars of the death, and meeting
Dr. Martin, told him about the case.
He said that's nothing; that he had a
patient once who swallowed a thermo-
meter and died by degrees. A
couple of bystanders just then chipped
in. One of them said it reminded him
of a fellow down in Kansas who swal-
lowed a pistol and went off easy. The
other one said he had a friend in La-
con who took a quart of applejack and
died in good spirits.—Ex.

Prospective Weather.

Hicks says that much unpleasant,
winter weather will fall in February
and March; that the months of April,
May and June will be propitious above
the average for all agricultural and
out door vocations. While the rain
fall generally for those months will
not be up to the average, there being
no disastrous suffering for moisture,
and that localities to the extreme north
and perhaps the extreme south and
east parts of the country will have
more rain than is wanted.

Indiana has been almost equaled by
Kansas. Worthington had the same
number of inhabitants in 1880 as in
1890; Kansas has a county in which
not one death occurred in a year and
the county has about 1500 people liv-
ing in it.

The most casual observer can not
help but notice that there are miles
and miles of railroad built in South-
ern Indiana every winter. These win-
ter railroads always vanish when the
first breath of spring wafts away the
wintry blasts. Every winter we are
assured that the Indianapolis South-
ern is on its way through the gold
bearing hills of Brown county ou to
Brownstown, thence to Salem, where
it forks, and one prong goes to Louis-
ville and the other to Paoli, via French
Lick. Then there are electric roads
galore. One is built every winter from
Louisville to French Lick, paralleling
the turn pike, another comes from In-
dianapolis to Bloomington, taps the
stone fields of Bedford, and the cement
mills of Mitchell, thence on to the rich
agricultural districts of Orleans, and
to the mineral waters of Paoli, West
Baden and French Lick, thence on
through the coal region of Dubois
county to the banks of the turbid Ohio.
These roads are all solid substantial
ones, when frozen, but they melt away
before the genial smiles of the sun-
shine of spring.—Orleans Progress-
Examiner.

DO YOU GET UP

WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news-
papers is sure to know of the wonderful
cures made by Dr.
Kilmer's Swamp-Root,
the great kidney, liver
and bladder remedy.

It is the great medi-
cal triumph of the nine-
teenth century; dis-
covered after years of
scientific research by
Dr. Kilmer, the emi-
nent kidney and blad-
der specialist, and is
wonderfully successful in promptly curing
lame back, kidney, bladder, uric acid trou-
bles and Bright's Disease, which is the worst
form of kidney trouble.

Dr. Kilmer's Swamp-Root is not rec-
ommended for everything but if you have kid-
ney, liver or bladder trouble it will be found
just the remedy you need. It has been tested
in so many ways, in hospital work, in private
practice, among the helpless too poor to pur-
chase relief and has proved so successful in
every case that a special arrangement has
been made by which all readers of this paper
who have not already tried it, may have a
sample bottle sent free by mail, also a book
telling more about Swamp-Root and how to
find out if you have kidney or bladder trouble.
When writing mention reading this generous
offer in this paper and
send your address to
Dr. Kilmer & Co., Bing-
hamton, N. Y. The
regular fifty cent and
dollar sizes are sold by all good druggists.

\$100 Reward, \$100.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh Cure
is the only positive cure known to the
medical fraternity. Catarrh being a
constitutional disease, requires a constitu-
tional treatment. Hall's Catarrh
Cure is taken internally, acting directly
upon the blood and mucous sur-
faces of the system, thereby destroy-
ing the foundation of the disease and
giving the patient strength by build-
ing up the constitution and assisting
nature in doing its work. The prop-
rietary have so much faith in its
curative powers that they offer one
hundred dollars for any case that it
fails to cure. Send for list of testi-
monials. Address,

RAILROAD RUMBLINGS.

C. H. Brown, of the Panhandle, was
here last evening on business.

J. H. Beaty, of the I. C. Line, and
wife, who have visited relatives here,
returned home this morning.

Conductor Mike Sexton and wife,
who have visited his mother and other
friends here, returned last night to
Cincinnati.

"I have used Chamberlain's Cough
Remedy for a number of years and
have no hesitancy in saying that it is
the best remedy for coughs, colds and
croup I have ever used in my family.
I have not words to express my
confidence in the remedy."—Mrs. J. A.

MARRIED.

BROWN-BYRNE.

Though late in making the announce-
ment to their friends, Miss Edith
Byrne, daughter of Mr. and Mrs. L.
P. Byrne, and Charles Brown, son of
Mr. and Mrs. John M. Brown, were
married in January at Louisville at
the home of the bride's aunt. They
have just gone to housekeeping in
nicely furnished rooms over Brown's
grocery store, corner of Third and
Ewing streets.

Dr. Will Baldwin, son of Mr. and
Mrs. W. L. Baldwin, of Seymour, has
just left New Orleans for Natal, South
Africa. He has been employed as
surgeon on the vessel. The voyage
will consume several months.

A. M. Beaty has sold a fine bunch
of hogs to Sherman Perry for ship-
ment to the city. The twenty-nine
hogs sold make an average of 300
pounds each.

ODD NAMES FOR TOWNS.

Indiana Has Her Full Share of
Homely Named Places.

On the map of Indiana one finds
such towns as Santa Claus, Big Foot,
Sleepy Eye, Pignut, Popcorn, Bern,
Schoonover, Crumtown, Zulu, Zippi,
and a hundred more peacemakers,
such as Pinhook, Henpeck, Glassy
Rock and 'Possum Trot. It does not
seem to have occurred to those who
christened the towns that they would
be handicapped throughout their ex-
istence by the freakish names bestowed
upon them just as the welfare of human
beings is sometimes affected by the so
called "christian," but in reality
heathenish, cognomen given them at
the baptismal font. Even among town
names that may lay claim to being
legitimate there are those that carry
with them prejudice of weakness, and
to overcome such a handicap many a
strong man and town has been forced
to pitch his weak given names over-
board and at least only save the
wreckage.

It is urged that it would be well for
not only sites, but the residents of
freakishly named villages in Indiana
for the legislature to consider at least
a hundred of them. The residents o-
the towns, as a rule, stand ready for
the relief. They find that many times
their postoffice address is as great a
millstone tied around the neck of their
ambition as though a nickname had
been saddled directly on them.

In urging reform in Indiana town
names it is pointed out that it would
take at least a Golconda diamond
mine, a Baku oil gusher or ten Jumbo
gas wells to anchor a real boom at
Boggs town, Jasonville, Creamburg,
Ijamsville, Sweet Home, Weed Patch
Hill, Potato Creek, Steam Center,
Wakeup, Needmore, Bovine, Buck-
skin, Bud, Doolittle, Snacks, Farmer's
Retreat, Gaff, Tulip, Migersville,
Grammar, Bean Blossom, Beecamp,
Bushy Prairie, Clay Bank, Yankee-
town, Bear Branch, Buck Creek, Dark
Hollow, Toll Gate, Cross Roads, Dog-
wood, Ogilville, Spraytown, Plum-
tree, Needham, Young America,
Sleeth, Dugger, Mulberry, Raceoon,
Birdseye, Rony, Old Quaker, Wild
Oats, Bucktown, Chestnut or Ragels-
ville.—Ex.

Liquid Electricity will stop pain in-
stantly with a thorough rubbing of the

will always use it. Ask Theo. Pellens,

A Quaker Calendar.

Mr. J. L. Blair shows to the RE-
PUBLICAN a "Friends' Calendar"
which he secured at Plainfield recent-
ly. Besides being an excellent calen-
dar, plain but neat, it shows forth
some of the characteristics and beliefs
of the Quaker. The names, January,
February, March, etc., do not appear
on the calendar at all, but "First
Month," "Second Month," etc. Nei-
ther does Sunday, Monday, Tuesday,
etc., appear, but "First Day," "Sec-
ond Day," etc. The moon's phases for
the whole year are plainly given.
Then on every page are given scrip-
tural quotations, proverbs, with now
and then a verse of some hymn, or
some statement of truth worth think-
ing about.

Approaching Nuptials.

SCOTTSBURG, February 14.—Cards
have been issued announcing the mar-
riage of Delbert Ervin and Miss Amy
Rider, both of this city, for next
Thursday, February 20. Mr. Ervin is
the son of J. E. Ervin, and assistant
editor of the Scott County Journal.
Miss Rider is the accomplished daugh-
ter of John W. Rider, owner of the
Scottsburg canning factory.

Just Straight Business.

There is no luck about advertising,
no chance, no scheme. It is legiti-
mate, straightforward business from
beginning to end from the day the
campaign is started clear up to the
close of business at the finish. Ad-
vertising is a legitimate, reasonable
means of gaining an end. The adver-
tisement which appeals best is that
which is planned with the greatest in-
telligence, contains the greatest volume
of honest intention and speaks in
frank, unequivocal words about reli-
able goods and about the careful
pampering methods of those who are
handling the business; presents in the
best way logical arguments for the
purchase of goods from the merchant
in question. This is advertising that
will pay, that cannot help it.—The
Advertising World.

Kodol Dyspepsia Cure

Digests
what you
Eat

You need all kinds of food to maintain the body. Curtail this variety
and some organ is underfed. It is for this reason that a diet is injurious.
If you cannot digest good food your stomach is out of order and needs
rest. You cannot go without food for that would mean starvation.
Kodol Dyspepsia Cure will digest what you eat without the stomach's aid.
Take it and you can rest your stomach without interrupting digestion.
It is nature's own remedy. Never fails. Anderson Riggs, Sunny Lane,
Tex., says: "I was troubled with indigestion ten years and tried many
things and spent much money until I tried Kodol Dyspepsia Cure. I am
now feeling better than in five years and more like a boy than in twenty."

Cures All Stomach Troubles.

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 24 times the 50c. size.
Sore, burns, wounds, skin diseases, quickly cured by DeWitt's
WITCH HAZEL SALVE. Beware of counterfeits.

Not what you pay for Coffee, but what Coffee pays you.

There are two values to every article,—what it costs and what it's worth.

Cork costs 8 cents a pound, but if you are drowning half a mile from shore, its value would be "not what you pay for cork, but what cork pays you."

You are not drowning, but you are using up strength and vitality in your daily work. You are getting back that strength and vitality in part from your morning cup of coffee.

It makes little difference what you pay for it; the important question is "What does it pay you?" You can see the strength you have, but you can't see the increased strength you would get if you drank

CHASE & SANBORN'S "High Grade" COFFEE.

This is a fact! You can easily test its truth. It will cost you one pound of coffee—that's all!

Methodist Revival.

The afternoon meeting yesterday was the best of the series thus far. The house was well filled at the evening service. Evangelist Life preached the strongest sermon thus far in his work. He chose for his theme: "Prepare to meet thy God." He gave four definitions of life from four different standpoints. Viz: Business, Law, Education, Physical. He brought these to a focus on eternal life with and without preparation for eternity. The pastor will preach at the morning service tomorrow. The Evangelist will speak to the membership at 3 p. m. and also conduct services at 7 p. m.

The Modern Way.

Two Old Letters.

Dixon M. Hays, exhibits to the REPUBLICAN two letters that are brown with age. One was written June 5, 1817, and the other May 7, 1828. Both antedate the use of envelopes. Both letters were written to M. S. Hays, grandfather, Zadok Richards. The older one was written in Clark county, Indiana, by his sister, Elizabeth Richards, and mailed to him in Washington county, Kentucky. The other was received by Mr. Richards after he settled in Jackson county near Brownstown and was written by John Winthrop, who was Mrs. D. M. Hays' great grandfather.

Mr. Hays also has a historical war map published in the latter part of 1862 that is of special interest, especially to the old soldier who was then marching against the Southern Confederacy.

UNCLE SAM'S BUSY MEN

Use Peruna For Colds, Coughs and Catarrh.

Postoffice Building, Montgomery, Ala.

Hon. John C. Lettwich, Redeemer of Public Moneys, whose office is in the magnificent building above shown, in a letter written from Montgomery, Ala., says: "I take pleasure in recommending Peruna as an excellent tonic and it is recommended to me by those who have used it as a good catarrh cure."

Hon. Robert Barber, Register United States Land Office, also writes from Montgomery, Ala.: "For some time I have been a sufferer from catarrh in its incipient stage, so much so that I became depressed and feared my health was generally in a decline. But hearing of Peruna as a good remedy I gave it a fair trial and soon began to improve. Its effects were distinctly beneficial, removing the annoying symptoms and was particularly good as a tonic."

Hon. J. K. Burke, Collector of Port, of Mobile, Ala., writes: "Peruna I can recommend as a fine medicine. It has been used in my family and as a tonic it is excellent. I take pleasure in testifying to its fine qualities."

P. D. Barker, Postmaster of Mobile, Ala., in a recent letter, says: "Allow me to send to you my testimonial as to the good qualities of Peruna. I have used it for the past three months and find it most excellent tonic."

As the skin covers the outside of the body, so the mucous membranes line the inside. Every organ, every duct, every passage, every cavity of the body, is lined by mucous membrane. These mucous membranes are liable from various causes to become irritated or inflamed. When this occurs it is called catarrh, and catarrh may be located in the head, nose, middle ear, throat, bronchial tubes, or air cells of the lungs, liver, bowels, kidneys, bladder, procreative and urinary organs. Wherever there is a mucous membrane, there catarrh may be also.

To be sure, catarrh of these various organs has been known by different names; that is, catarrh of the stomach has been called dyspepsia, catarrh of the bowels, Bright's Disease; catarrh of the bowels, diarrhea or dysentery; catarrh of the procreative organs, female trouble, and so on, and so on. But our claim is, that these are all one and the same disease—catarrh—and that our remedy, Peruna, is applicable to catarrh of all of these various organs.

Peruna is not a "cure all"; it cures just one disease—catarrh. But since catarrh is able to fasten itself within the different organs of the body, so it is that Peruna cures affections of these organs. But we insist that Peruna cures one disease only. We claim that Peruna is the only internal, scientific remedy for catarrh yet devised. We claim that catarrh is a systemic disease; that is to say, it invades the whole system. We claim that Peruna is a systemic remedy; that is to say, it eradicates catarrh from the system. Catarrh is not a local disease; Peruna is not a local remedy. Since catarrh invades the system, only a systemic remedy can reach it. This, in brief, our claim in assigning to the disease—catarrh—our remedy, Peruna.

An instructive and interesting treatise on catarrh in its different forms and stages, will be sent free to any address by The Peruna Medicine Co., Columbus, Ohio.

A WORLD WIDE VICTORY.

The recent victories of the house of Baldwin at the Paris Exposition give to its products a value and prestige not possessed by any other American piano. The grand Prix awarded the Baldwin Piano is an honor coveted by all the manufacturers of the world, but which has never been bestowed upon any American piano except the Baldwin. The Silver Medal awarded the Hamilton pianos and organs shows the estimate of the International Jury of these Standard Instruments. The fifteen other awards [gold, silver and bronze medals, and honorable mentions], serve to emphasize the Great one, and show the high value placed upon the details of construction and the inventions embodied in these instruments.

A NIGHT ATTACK.

The Deadly Grip of an Invisible Hand.

The climax of some of the most weird ghost stories is reached in the choking grip of an unseen hand upon the throat of a sleeping victim. We are constantly proving that the most fantastic stories may have some basis in actual fact. It is so in the case of the strangling grip of the invisible hand. The man who has had a night attack of severe bronchitis, knows the choking and gasping which follow the paroxysm as if some hand was tightening on the air passages, and the victim was slowly suffocating.

Bronchitis can be cured. Coughs and lung troubles generally can be cured by the use of Dr. Pierce's Golden Medical Discovery.

"I wrote to you for advice and you advised me to take 'Golden Medical Discovery' and 'Pleasant Pellets,' which

I did, and to my surprise got well," writes Mr. Joseph A. Valleroy, of Forman, Ill. (Box 3). "I had what the doctors called bronchitis, and whenever I would take cold would suffer greatly; but since taking two bottles of Dr. Pierce's Golden Medical Discovery and one bottle of his 'Pleasant Pellets' I have been cured of that terrible trouble. Before taking your medicine I weighed 120 pounds; now I weigh 130."

THE FATAL END.

Thousands of people die every year of consumption. Every one of those thousands might have been cured of the cough or lung trouble which ended fatally. There is no cough, however trivial, that does not have in it the germ of consumption. When bronchitis develops, the possibility of a cough ending in consumption is increased to a probability. It is no time to use cough medicines, syrups and opiates. The need is for some healing medicine, which will not only cure the cough but heal the inflamed and diseased tissues. That is the work performed by "Golden Medical Discovery." It cures coughs. But it does far more than that. It cures weak and bleeding lungs. It takes the weak, emaciated, tottering victim, for whom the bony hand of consumption is already outstretched, and leads him back to health. It has done this in hundreds of cases where hemorrhages were severe and frequent, emaciation far advanced, and the night-sweat and hectic fever seemed to set the seal of doom upon the weakening life.

"I wish to inform you that I consider your medicine the best ever put before the public for lung and throat trouble, general debility and female weakness," writes Mrs. V. B. Miller, of South Bend (River Park), Ind. "I have been a great sufferer for several years with bronchitis, catarrh of stomach and female weakness. Was so bad off this spring did not think could live until now. Could neither eat nor sleep, could not be on my feet but a short time, had a terrible cough, was very thin and nervous. I began using Dr. Pierce's medicines and have taken them steadily since last May, have taken nine bottles of each kind, 'Golden Medical Discovery' and 'Favorite Prescrip-

tion.' The improvement seemed slow at first but am improving fast lately. Have not coughed for three months. My friends all speak of my looking so much better. I do all my housework, have canned one hundred and fifty quarts of fruit this fall. You may publish this statement if you wish. I hope all women so afflicted will try Dr. Pierce's medicines and be cured—not only take a few bottles, but continue their use until cured."

WHAT IS YOUR WEIGHT?

One of the first signs of pulmonary disease is loss of flesh. The man finds his clothes hanging a little loosely on him. The woman finds that her gowns do not fit her as snugly as when they were made for her. When the scales show a steady decrease from the normal weight of health, there is danger. If there is a cough then the danger threatens the lungs, or has already attacked them. There should be no delay in taking measures to at once stop this loss of flesh, and that can only be done by curing the disease which causes emaciation.

Those who have been cured of lung disease by the use of Dr. Pierce's Golden Medical Discovery generally mention the gain in flesh which accompanies the cure. Sometimes this gain is only implied, as in the case of Mrs. Miller, who was "very thin," and whose friends told her since using the "Discovery" how much better she is looking. It is implied too in the change from a woman who could only be on her feet but a short time—to a woman who can do all her own housework and can one hundred and fifty quarts of fruit. But in many cases, as in Mr. Valleroy's, the gain in weight is explicitly stated: "Before taking your medicine I weighed 120 pounds; now I weigh 130." There's proof positive of cure, when lost flesh is regained and when weakness is changed into strength.

"In 1900, my husband had neuralgia and also a severe cough," writes Mrs. Bettie E. Payne, of Kiel, Okla. "For nearly three years his cough was so bad he could not lie down at night. He got no relief from the doctors we employed, so we purchased two bottles of Dr. Pierce's Golden Medical Discovery. After the first four doses we could see that his cough was better, and he rested fairly well that night. The doctor thought it was consumption—if it was, the two bottles of 'Golden Medical Discovery' cured him—nothing else did."

Dr. Pierce's Golden Medical Discovery cures bronchitis, deep-seated coughs, weak and bleeding lungs, emaciation and conditions generally, which, if neglected or unsuitably treated, end a fatal termination in consumption.

Sick people, especially those suffering from chronic diseases, are invited to consult Dr. Pierce, by letter, free, and so obtain, without charge, the opinion of a specialist on their ailments. All correspondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. Sometimes a dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It is better for the dealer because it pays better, but it is not as good for you if you want the medicine that has cured others, and which you believe will cure you.

IT WILL HELP YOU.

Dr. Pierce's Common Sense Medical Adviser will help anyone who studies it to live a healthy and vigorous life. It is a plain book for plain people. It deals with the most profound subjects from the view-point of common sense. It tells the truth in plain English, free from medical jargon. This great work, containing more than a thousand large pages and over 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Widow's Contentment Sustained.

Evansville, Ind., Feb. 15.—Mary Tolison of this city brought suit against the Washington Life Insurance company of New York for \$2,000, alleging this amount was taken out by her husband in a policy shortly before his death. Tolison was found dead last July in the railroad yards here with a bullet-hole in his temple. The coroner said it was a case of suicide, but the wife contended that her husband was murdered. The jury has just brought in a verdict awarding the widow \$2,000.

A LESSON IN CHESS.

Why Willie's Papa Ended It Almost Before It Was Begun.

Paterfamilias, with a laudable desire to keep Willie at home at night, offered to teach him to play chess. The boy was delighted, and the game began. "Put the little ones, pawns, all along the front and the big ones behind, as I show you."

"I think that is cowardly. The big ones ought to be in front. Ma says"—"Oh, but that is the rule. Now, see no; put that rook in the corner."

"Rook! What's a rook?" "It is a kind of bird."

"Well, that ain't a bird. It looks like a castle."

"Call it a castle, then—and put the knight next."

"Why is that called a knight? It looks like a horse's head."

"And then the bishop," went on paterfamilias, ignoring the question; "so, and then—"

"Why is the bishop's head split in two, pop?"

"Oh, that is his hat—a cardinal's hat."

"But I thought he was a bishop!"

"A cardinal is also a bishop. Now don't talk so much, Willie. Then you put the king and queen?"

"The queen is bigger than the king, pop!"

"Well, so she is. Who said she wasn't?" said paterfamilias, with a trace of impatience in his tone. "And then another bishop; so."

"Why are there two bishops, pop?"

"Because the rules say so. Now, I shall move first."

"What, after all that trouble, are you going to move them again?"

"Say, Willie, I believe my head is aching. I shall show you the rest some other time," said paterfamilias as he swept the men into the box.—New York Times.

How to Teach a Pet to Ride a Ball.

Many readers have doubtless seen bears standing on a rolling ball and maintaining their balance perfectly while rolling it about the arena. I have a bear who delights to do the trick. He can scarcely wait for his time to come to perform. He was taught, as they are all taught, by joggling his pedestal while he tried to keep from being jostled off. Gradually the pedestal was substituted for a ball with many flat places on it, and this was followed by a perfect sphere. He has been performing two years now, and I have never known him to slip and fall off.—Frank Leslie's Popular Monthly.

WITH ONE VOICE.

Seymour People Who Have Investigated are a United on the Subject.

The voice of the people is heard all over the land. Trumpet notes of truth Bounded from east to west Seymour has joined the throng Many a citizen lifts his voice in praise, Enthusiastic people everywhere, Backs relieved of heavy burdens, Nights of suffering, days of misery, Become nights of rest and days of joy. It's the constant working of Doan's Kidney Pills. Are these reports all true? Here's a Seymour man; ask him his opinion.

Mr. William Zickler, of Poplar street, insurance agent, says: "I can recommend Doan's Kidney Pills, sold at C. W. Milhous' drug store. I suffered from pain over my hips and sometimes in the upper part of my shoulder. A very short course of the treatment with Doan's Kidney Pills banished the pain across my kidneys and up to date there has been no recurrence. I was told by my physician that the trouble was owing to uric acid in my system but since taking Doan's Kidney Pills I think I am about rid of it. They were positive in ridding me of the backache and regulating the action of the kidney secretions."

WRECKED THE TRAIN.

A Falling Boulder Causes Death and Destruction.

Little Rock, Ark., Feb. 15.—Seven men were killed and at least 14 were seriously injured by a huge boulder, weighing 15 tons, crashing into the caboose of a worktrain on the Choctaw, Oklahoma and Gulf railroad 20 miles west of Little Rock yesterday.

The worktrain was headed west, the engine pushing six cars and a caboose. It was in charge of Conductor J. R. Gamble, Engineer Nazor and Fireman W. H. Evans. As the train was passing under the high bluffs bordering the river two miles west of Little Maumelle, the crew saw a heavy rock rolling down the steep declivity, having been detached from the hillside by the rains. The train was going slowly, but was almost upon the rock when it struck the track. Engineer Nazor reversed his engine at once, but the train struck it with almost full force. The caboose was at the head of the train and was shivered into splinters. Most of the men who were killed and injured were in the caboose. There was a crew of 54 men, white and colored. Just back of the caboose were three cars of sand and many of the men were buried underneath the sand which was thrown forward by the terrific impact. Six men are known to have been killed outright. Three were left on the scene and three were brought to Little Rock on the train that was dispatched to the scene as soon as the news could be sent to the city. Fifteen injured were brought to Little Rock and are now at St. Vincent's infirmary. One of the most desperately injured died on the way to the hospital from the depot.

It is believed there are others killed or buried under the sand at the scene of the wreck, as there are several missing and as yet unaccounted for. A crew of workmen are clearing the wreck and looking for the bodies.

If the engineer had not stopped the train when he did the entire train must have been hurled down the embankment and all on board killed. Conductor Gamble had a close call. Two trucks passed over him, but he stooped down and the first did not touch him. The second passed over his foot, crushing it so badly that it may have to be amputated.

Still Building Battleships.

London, Feb. 15.—The admiralty's naval estimates for 1902-3 show a total of £31,255,000 as compared with £30,875,000 last year. There will be undertaken April 1 of this year 13 new battleships, 22 armored cruisers, two second-class cruisers, two third-class cruisers, 10 torpedo boat destroyers, five torpedo boats and eight minor craft.

Telegraph Liar Spotted.

Belgrade, Serbia, Feb. 15.—There is no truth in the report circulated by a news agency in the United States that two soldiers of King Alexander's bodyguard, while on duty outside his apartments, were recently chloroformed and killed.

FORCEFUL EXPRESSIONS.

The Power of Illustration in the Turn of a Phrase.

James Russell Lowell said, "There's a deal of solid kicking in the meekest looking mule." If the statement had been, "There's a good deal of obstinacy covered by apparent amiability," the remark might have passed without a moment's notice, but attached to such a figure as the poet used it will be difficult for the mind ever to get rid of it.

Mazzini says, "Labor is the divine law of our existence." This is little more than commonplace, but when he added, "Repose is desertion and suicide," the commonplace was transfigured into a memorable illustration.

A French writer said, "The really efficient laborer will be found not to crowd his day with work." That seems to be forgettable. When he adds, "He will saunter to his task surrounded by a wide halo of ease and leisure," the halo serves the purpose of an explanatory illustration.

President Garfield once said, "Nine times out of ten the best thing that can happen to a young man is to be tossed overboard and compelled to sink or swim for himself." The tossing overboard was the illustration. The sagacious president gave it significance and emphasis by personal reference, "In all my acquaintance I never knew a man to be drowned who was worth the saving."

When Lavater said, "Habit is altogether too arbitrary a master for me to submit to," it was the word "master" that constituted the memorable illustration.

Carlyle, a great master of metaphor, said truly: "No man lives without jostling and being jostled. In all ways he has to elbow himself through the world, giving and receiving offense." The doctrine of this sentence might easily have become a mere platitude, but it is fixed upon the memory by jostling and being jostled and the elbowing of oneself through the world. This illustration is the very making of the argument.—Joseph Parker, D. D., in Homiletic Review.

SOME METALS.

Iridium, worth more than \$750 a pound, is the hardest metal known and is used to tip gold pens.

Lithium, worth more than \$1,100 a pound, is used only in medicine, its salts being valuable in rheumatic affections.

Tungsten, worth 90 cents a pound, is largely used in metallurgy and gives to steel qualities similar to those imparted by molybdenum.

Molybdenum, worth \$1.44 a pound, is used in metallurgy. Molybdenum steel possesses the rare quality of preserving its hardness even when heated to redness.

Selenium, which has the curious property of losing its resistance to the electric current under the influence of light, is used in the telegraph and is worth \$22 a pound.

Uranium, worth \$86 a pound, is used in the glass and porcelain industries. It has been found that uranium carbide is superior to nickel or tungsten in the manufacture of high grade steel.

Palladium, which has the smallest coefficient of dilatation, is used for the mounting of astronomical instruments. The standard meter of France is made of palladium. The pure metal costs \$482 a pound.

Vanadium oxidizes in air with great difficulty, melts at 2,000 degrees and becomes red-hot in hydrogen. Neither hydrochloric acid nor nitric acid attacks it. It costs \$502 a pound and is used in coloring glass and in making indelible inks.

Italy's Marriage Brokers.

Marriage brokers are a regular institution in Italy. In Genoa there are several marriage brokers who have pocketbooks filled with the names of the marriageable girls of the different classes, with notes of their figures, personal attractions, fortune and other circumstances. These brokers go about endeavoring to arrange matrimonial alliances in the same offhand mercantile manner which they would bring to bear upon a purely business transaction, and when they succeed they get a commission of 2 or 3 per cent upon the dowry, with such extras of bonuses as may be voluntarily bestowed by the party.

Animals In Turkey.

In Turkey the partridge is detested because once it betrayed the prophet to his enemies, and its legs are red because they were dipped in the blood of Hassan. If a man kills a panther, he is imprisoned for twenty-four hours and then is handsomely rewarded. The crane is respected, and it is a crime to kill it.

The Crocodile.

The crocodile's lower jaw is not socketed in the skull, as is the case with other animals, but the skull is socketed in the jaw, so that the animal can lift the upper part of its head as upon a hinge and so capture whatever prey may be at hand without going to the trouble of getting upon its legs.

What He Wanted to Say.

"Prisoner at the bar," said the judge, "is there anything you wish to say before sentence is passed on you?"

The prisoner looked wistfully toward the door and remarked that he would like to say "Good evening," if it would be agreeable to the company.

NERVOUS PROSTRATION.

Miss W. Childs-Blackburn, Secretary of the Rock Island Literary and Art Society,

Writes a Special Letter to Mrs. Pinkham Telling How She Was Cured.

The relation of woman's nerves and generative organs is very close; consequently nine tenths of the nervous prostration, nervous despondency and nervous irritability of women arise from some derangement of the organism which makes her a woman. Herein we prove conclusively that Lydia E. Pinkham's Vegetable Compound will quickly relieve all this trouble.

MISS W. CHILDS-BLACKBURN.

"DEAR MRS. PINKHAM:—I take pleasure in acknowledging the effects of Lydia E. Pinkham's Vegetable Compound. In my estimation there is no female remedy to equal it. Weakness not properly attended to, together with the close confinement at my desk brought on nervous prostration, so much so that for a year I doctored continually. I tried different remedies which only succeeded in poisoning my system, and my stomach refused food. A neighbor who had suffered with ovarian troubles and was perfectly cured, called my attention to your Vegetable Compound, and I made up my mind to give it a two months' fair trial. However, before one month had passed I was like a new woman, and after six weeks faithful use of the Compound I was in perfect health. It certainly is of great benefit to women, and I wish every poor suffering woman could have a chance to try it. Yours very truly, Miss W. Childs-Blackburn, 2922 Fifth Ave., Rock Island, Ill."

Nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound; it soothes, strengthens, heals and tones up the delicate female organism. It is a positive cure for all kinds of female complaints; that bearing down feeling, backache, displacement of the womb, inflammation of the ovaries and is invaluable during the change of life.

How Mrs. Pinkham helped Mrs. Borst.

"DEAR MRS. PINKHAM:—When I wrote to you some time ago for advice I really thought my days were numbered. I was so ill that I could not stand on my feet for fifteen minutes at a time. I had female troubles in many of their worst forms; inflammation and ulceration of the womb; leucorrhoea; bearing down pains; headache and backache; nervous prostration. My kidneys were out of order and blood in a bad condition. Everyone, and even my doctor thought I was going into consumption. I followed your advice faithfully for six months with the result that I became a well woman, and it cost me much less than a doctor's bill. I feel that Lydia E. Pinkham's Vegetable Compound saved my life."—Mrs. SAMUEL BORST, 7 Cozy Ave., Oneonta, N. Y.

The above letter shows how unerring is the advice which Mrs. Pinkham gives to women who write her about their sickness; as the advice is free and always helpful it is not strange that she advises more than one hundred thousand sick women every year. Her address is Lynn, Mass.

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use 'eaven' any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden, S. C. Messenger. For sale by C. W. Milhous.

Mr Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. WHEELER, Northwood, N. Y. For sale by C. W. Milhous.

For Stomach Troubles.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by C. W. Milhous.

Mrs. Eleanor Harris, of Crawford county, came here last evening to visit relatives in the first ward.

Coughs and colds, down to the very borderland of consumption, yield to the soothing healing influences of Dr. Wood's Norway Pine Syrup.
